The students also become eager to know the qualitative aspects of these plants and often wonder about the powerful implication of the plant community.
- **Plastic use, it's effect and management:** Non-biodegradable Plastics are of common use in the developing country as is our, usually in the form of carry bags. Due to their micro-thin nature these are carried by wind to the undesired places clogging water ways such as drain, jamming cultivable land beside being non-aesthetic. The students are regularly deliberated on the management of plastic carry bags as well as their economic use. NSS volunteers and students of Environmental study always kept maintain the CAMPUS clean by removing plastics.
- **High power noiseless KIRLOSKAR generator has been arranged.**
